

RESPECT THE MARKERS

- When digging, make sure to always dig around the marks, not on them.
- Some facilities may be buried at a shallow depth, and an unintended shovel thrust can bring you right back to square one – facing potentially dangerous and/or costly consequences.
- Remember you must hand dig to the depth of your excavation within one meter of locate markings, unless instructed differently by the facility owner.

C all or Click Before You Dig

A llow required time for Marking

- 2-3 business days

R espect the marks

- Lines are marked by flags, paint or other markers

E xcavate carefully
